Buying products made in other nations

Ad

- **having more choice to buy different products**
  - global shopping websites give them about the model, price, quality of each product
  - comparing different products at different store to choose suitable product at a cheaper price
  - getting products with better quality
- **this trend helps develop the global trade**
  - buying products which are not available in their own countries
  - when exporting goods to other countries, the local economy can avoid waste of items when production is more than the local demand

Dis

- **affecting the local economy badly**
  - the demand for local products will decrease
  - local companies will make less money
  - more local people might lose jobs and some traditional work may be lost
- **importing from other countries takes lots of time, money**
  - buying goods overseas can be expensive because people have to pay for shipping cost
  - waiting for longer time to receive their products

NThu 0337963775

NThu 0337963775

staying alone instead of getting married

Ad

- **having more freedom and independence**
  - travel and do whatever wherever they want
  - making decision by themselves without needing others' approval
  - having more personal space and privacy
- **focus on career and self-development**
  - more time to improve their skills and personal interests
  - lead to better job opportunities
- **less family problems**
  - avoid conflicts related to marriage and childcare
  - feel more comfortable with their own choice
  - avoid arguments with family members
- **becoming more independent and responsibility with themselves**
  - manage time, money, life
  - take care of themselves

Dis

- **cause loneliness and isolation**
  - mental health is decreased, depression may increase
  - especially when they are sick and have homesickness
- **financial burden**
  - more expensive
  - pay all living expenses by themselves
- **safety issues**
  - can be unsafe
  - may be no one to help in emergencies
- **social skills and close relationships may weaken**

Impact

- **birth rate may decrease**
  - the population becomes older
- **traditional family values may weaken**

Solution

- **government**
  - providing financial support for young families
  - childcare and healthcare services should be improved
- **social**
  - promoting a healthy work-life balance
  - present positive examples of family life
- **people**
  - improving communication and relationship skills
  - joining clubs or community activities
  - keeping in touch with their family and friends

NThu 0337963775

NThu 0337963775

Having children later

Cause

- **Career**
  - focus on higher education and career development
  - achieve financial stability before having children
  - they delay marriage and childbirth
- **financial burden**
  - the cost of living is high
  - raising a child requires a lot of money for education, healthcare, daily expenses
  - many couples have not enough money to ready to have children early
- **freedom**
  - enjoy life and personal freedom
  - prefer travelling, self-development
  - late childbirth is more accepted than more
  - women are more independent
  - giving birth might make women lose job

Consequences

- **facing higher health risks during pregnancy - high blood pressure**
- **difficult to get pregnant**
- **be dangerous for both mother and babies**
- **be a burden on the healthcare system when they are old**

NThu 0337963775

NThu 0337963775

Brain drain (phenomenon)

Cause

- better job opportunities abroad
  - offering higher salaries
  - working conditions are more professional, modern
  - talented people have more chances for career
- developed countries have better living conditions
  - providing a higher quality of life
  - getting higher education in developed countries
  - learning with qualified teachers, equip modern facilities
  - having a degree of a foreign university → have good job
  - having a more comfortable and stable life
- lack of opportunities at home
  - low salaries, limited job opportunities in the home country
  - lack of modern facilities, research environment
  - talented people feel undervalued

Solution

- **improve working conditions**
  - encourage companies to improve working conditions, create more jobs
  - supporting local business, start-ups
  - attracting foreign investment to create high-quality jobs
  - talented people receive a suitable salary
  - reducing unemployment among skilled workers
- **improving living conditions, education, security**
  - investing more education → modern facilities, technology should be provided
  - this encourages talented people to stay or return

NThu 0337963775

NThu 0337963775

doing household

- Advantage
  - **helping children play their role in their family**
    - every member has their own duties
    - when doing some tasks: cleaning the house, washing dishes
    - feel proud of finishing something and being a part of their family
  - **becoming more responsible for their family**
    - important for their life because they will learn to be responsible for everything they do
  - **learning how to do household well → creat a good environment**
    - living alone and do everything on their own
  - **becoming more mature and independent**
    - using these skills in their adult life
  - **improving personal skills: communication skills, group work when doing housework with family members**
  - **helping their family members feel become happier**
    - parents feel less stressed, tired after hard working hours
    - children share work with them → happy and relaxed
    - spending more time together due to when sharing house → saving time to do many other things

NThu 0337963775

NThu 0337963775

Plastic waste

Cause

- **excessive use of plastic**
  - people use plastic bags, bottles everyday
  - these products are cheap, light, convenient
  - using them once and then throw them away
- **lack of environmental awareness**
  - don't understand the long-term danger of plastic waste
  - littering plastic waste in public places: streets, parks, beaches
  - environmental education is still limited in some areas
- **ineffective waste management systems**
  - isn't properly sorted at home
  - recycling systems are underdeveloped in many countries
  - a large amount of plastic waste is dumped into rivers
- **rapid urbanization and population growth**
  - big cities produce a huge amount of plastic waste
  - the demand of packaged food and takeaway service

Effect

- **environment**
  - pollute soil, rivers, oceans
  - plastic takes hundreds of years to decompose → damage the natural environment
- **wildlife**
  - wildlife habitats are destroyed
  - many marine animals die because of consumption plastic wastes
- **on human health** → cause long-term health problems
- **economic effect**
  - cleaning plastic waste costs a lot of money
  - tourism is negatively affected

Solution

- **individuals solution**
  - reducing the use of plastic products
  - bringing reusable bags and bottles
  - sort for recycling at home
  - supermarkets should reduce plastic packaging
- **government**
  - environmental education should be promoted
  - media campaign should raise awareness about plastic pollution
  - encourage citizens to have eco-friendly lifestyles

staying alone instead of getting married

Ad

- **people prefer more freedom and better skill development**
  - having more freedom to do what they like without bothering others
  - can learn more skills, broaden your knowledge when travelling
- **marriage life involves too much commitment and responsibility**
  - have to keep good relationships with many people
  - solving many problems
  - taking care of young children and raising them is very har

Effect

- **positive - promote economic growth**→ focusing on work → working more effectively
- **negative - feel lonely, depressed** → may have some serious mental

NThu 0337963775

NThu 0337963775

Stress

Effect

- **causing health problems**
  - feel tired, depressed, exhausted
  - having a headache or skin problems
  - lead to sleep problems → sleep disturbance
  - losing concentration and motivation
- **bad effects on people's behaviors**
  - using drugs or drink alcohol → not good for health
  - becoming violent, impatient, easily get angry
  - having bad actions
- **effecting people's relationship badly**
  - becoming aggressive person, not want to communicate with others
  - social relationships can be damaged
  - arguing more with family and friends

Solution

- **improving health**
  - doing exercise regularly to reduce stress
  - eating healthy food and get enough sleep
- **relaxation**
  - managing time effectively to avoid pressure
  - taking short breaks when feeling tired
- **social**
  - talk to family members about problems
  - sharing feelings instead of keeping them inside
  - asking for help when necessary
- **seeking professional help**
  - seeking help from psychologist if stress become serious
  - participating in social clubs, community activities to reduce stress

NThu 0337963775

NThu 0337963775

Light pollution

Cause

- **excessive use of artificial lighting**
  - too many street lights, billboards are used at night
  - lights are left on unnecessarily in buildings and public areas
- **poor lighting design**
  - many lights are not properly designed or installed
  - light is directed upward instead of toward the ground
  - this causes light to spread into the sky and nearby areas
- **urbanization and development**
  - urban development increases the number of buildings and lights
  - cities operate 24 hours a day, leading to light pollution

Effect

- **light pollution disrupts sleep**
  - causing insomnia and stress
  - long term may increase the risk of health problems
- **effecting on wildlife and nature**
  - animals, birds lose their natural sleep
  - sea turtles and insects are especially affected by artificial lights
  - ecosystems may be disrupted
- **effecting on the environment, society**
  - energy is wasted due to unnecessary lighting
  - this increase electricity consumption and cost

Solution

- **improving lighting design**
  - using well-designed lighting that directs light downward
  - reducing unnecessary brightness
- **using saving energy lighting**
  - replace old lights with LED lights
- **government**
  - introducing laws on outdoor lighting
  - raising public awareness about light pollution
  - encourage people turn off lights when not needed

AI

- **Ad**
  - **improve effectively**
    - helping people work/study faster and more quick → AI can collect large amount of data quicky
    - machines can work continuously without getting tired
    - this helps reduce human errors and increase productivity
  - **support education and personal learning**
    - AI can adapt lessons to each student's ability
    - studying anytime and anywhere
    - helping students find information quickly → studying effectively
    - checking assignments and students receive feedback immediately
    - helping find out mistakes and improve faster
    - improving self-study skills
      - encourage independent learning
      - participate, review lessons by themselves
    - enhancing motivation and engagement
      - using games, interactive activities
      - learning more attractive
  - **improve healthcare service**
    - helping doctor diagnose diseases
    - robots can assist in surgeries and patient care
  - **enhance daily life**
    - AI is used in smart house, assistant
    - helping save time, living more comfortable
- **Dis**

NThu 0337963775

NThu 0337963775

AI

Disavantage

- **loss of critical thinking**
  - rely too much on AI to solve problems
  - stopping thinking independently
  - this weakens critical thinking and problem - solving skills
- **Reducing creative** → AI provide answer and idea
- **depending on technology**
  - uncomfortable without AI tools
  - cannot work/study effectively without AI supports
- **academic dishonesty**
  - Using AI to do assignment
  - lead to cheating assignment
- **privacy and data security risks**
  - AI systems collect a lot of personal data
  - may be leaked or misused
- **decreasing human interaction**
  - interacting more with machines than with other people
  - relationships can be weaken
- **unemployment**
  - replacing human in many job
  - low-skilled workers are at higher risk of losing their jobs if people don't update their skills with the development of technology

NThu 0337963775

NThu 0337963775

Traditional classes

Ad

- communicating face to face with teachers and friends
- teacher can explain lessons clearly and answer questions immediately
- helping students understand lessons better
- are less distracted by doing other things
- concentrating on the lessons
- interacting with classmates everyday
- learning how to work in group
- improving communication and teamwork skills
- teacher can control students' academic performance
- mistakes can be corrected quickly
- **Develop discipline**
  - attending classes on time
  - following rules and manage time

Dis

- **lack of flexibility**
  - cannot choose the time, place to study
  - inconvenient for working students
- **limit learning resources**
  - learning materials are mainly textbooks and lectures
  - less updated information
  - limiting creativity and independent
- **time, cost** → spending time commuting to school; transportation costs can be high
- **overcrowed** → too much students, teacher cannot give enough attention to each student

NThu 0337963775

NThu 0337963775

Crime

Cause

- **a lack of parental care**
  - not be nurtured with enough love, care, support
  - parents are too busy and don't spend enough time with their children
  - children feel abandoned and easily influenced by negative behaviors
- **getting access to violent games**
  - copy bad things on the internet
- **poverty**
  - people live in poverty and don't have enough means to secure a living in legal ways
    - commit crime
      - the easiest way to get what they want
      - not require any skills and talents

Solution

- **family**
  - spending more time with their children
  - controling children's activities and behaviors
  - giving good advice and guide children in the right direction
  - preventing children from making mistakes
- **education**
  - schools should teach more values and life skills
  - educating about the consequences of criminal behavior
  - helping them distinguish between wrong and right
- **punish**
  - punishing those who commit crime
  - criminals should be sent to rehabilitation centers
    - learning how to behave well
    - receiving vocational training
    - finding a job later

work/study

Introduce

- I am a third year student at the university of ...
- I work as an accountant for ABC company

Duties

- **study**
  - **doing homework**
    - completing assignments on time
    - reviewing lessons after class to better understand
  - **making presentation**
    - preparing ideas and organizing ideas clearly
    - working individually or in a group to present topics in class
  - **joining club**
    - participate in academic or social clubs at the university
    - meeting new friends and expand my social network
  - **doing part time job at the weekends**
    - having more income to support my living expenses
    - learning how to manage time effectively between work and st
- **work**
  - **I am in charge of**
    - working with clients to understand their need and requirements
    - solving their problems
    - contacting partners and maintaining good business relationships
  - **collaborate with other departments to run the business smoothly**

Opinion

like

- **applying the knowledge and skills**
  - using what I learned at the university in real life situations
  - increasing my confidence in my future career
- **having an environment to develop skills**
  - the working environment allows me to learn from colleagues
  - skills and soft skills: communication, teamwork
- **having opportunities for promotion**
- **co - worked are friendly and supportive**
  - willing to help whenever I have problems
  - teamwork become more effective and enjoyable

NThu 0337963775

NThu 0337963775

work/study

Opinion

- like
- dislike
  - sometimes, I have to work overtime
    - feel tired
    - having less time for my family, friends
  - the company is far from home
    - spending a lot of time commuting everyday
    - long travel makes me exhausted
  - the workload is huge
    - having many tasks to complete at the same time
    - stress and overload

Solution

- working overtime
  - asking for help from colleagues when necessary
    - the easiest way to get what they want
    - not require any skills and talents
  - planning tasks more carefully
  - improving time management skills to finish work more effectively
  - discussing workload with the supervisor to arrange tasks more reasonably
- having less time for your family and friends
  - creating schedule to balance work and personal life
  - spending quality time with your family and friends
  - using free time effectively instead of wasting it
- the company being far from your home
  - using public transportation to reduce stress
  - working online from home if possible
  - using commuting time to listen to podcasts, learn new skills
